

Whitespace Design Consultancy Limited has been operating for over 10 years in the commercial interior fit out industry. Originally setup as a design led supplier of contract furniture, Whitespace have developed the business to service sectors such as Hospitality, Healthcare, Education and Corporate Offices throughout the UK and Ireland.

Due to an increasing demand for our products and services we need to recruit a part-time permanent Design Technician. This is a great opportunity for the right candidate to join a professional and friendly company environment. You will be working within the design office and with the team engaging with clients and discussing their needs.

Job Title: Design Technician

Duties include but are not limited to:

- Preparing site specific plans via copy of original architects plans or scaled drawings from sketch made on site by Operational Personnel detailing necessary information
- In addition to preparing plans, the CAD Technician updates systems via SharePoint so that information can be viewed instantly by wider team
- Producing 3D rendering stills and moving images for ongoing projects
- Provide space planning suggestions & concepts during management meetings

Essential Criteria

- Proficient in 3D modelling & rendering packages such as SketchUp or similar
- Experience in producing scaled drawings/plans of detailed information using AutoCAD
- Good technical understanding of commercial interior fit out

We are looking for someone who is self-confident, motivated, and experienced. This role will allow the successful candidates excellent exposure to design work and give them the opportunity to develop their experience working on high value projects. You will be flexible and adaptable to changing priorities and enjoy getting things done whilst working as part of a team. The role offers good variety and job satisfaction.

20 Hours per week (flexibility and salary to be discussed at interview). Offices are modern and spacious in the Harbour Estate, Belfast with free car parking.
