

## PODS

Pods nestle and tessellate to maximise available space, allowing the creation of a community of environments and destinations.

This new family of Pods has been developed to respond to what people tell us they want, to facilitate how people want and need to work;

to focus as individuals or in group spaces. The enhanced work surface size allows fixed pc's to be used and complies with legislation for use as a primary workspace.

### Standard Features

Internal Steel frame with multi-layered acoustic foam construction  
Outer vertical panels upholstered in Camira Blazer fabric (two-tone is standard)  
Quick release panel connector system  
Levelling adjusters

### Optional Features ( \*Selected models only)

1, 2, 3 or 4 person configuration  
Height Adjustable Work Surface\*  
Storage  
Two-tone upholstery on integrated seat units

### Accessories

Monitor Arms  
PU Desk Accessories  
Desk Top Accessories  
CPU Holders  
Electrical Accessories  
Coat Hanger  
Name Plate  
A2 Magnetic Dry Wipe Board with hanger  
A3 Magnetic Dry Wipe Board with hanger

## DESIGN

### By Senator

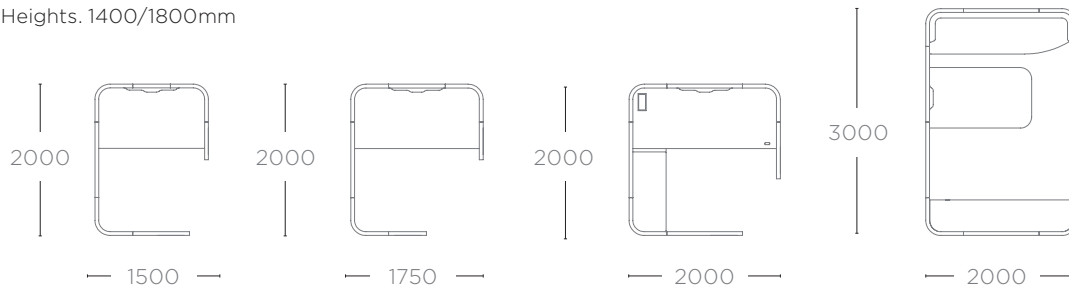

Our team of talented in house designers are responsible for creating elegant, innovative furniture designs which not only look beautiful, but minimise the impact on the world around us.

They come from all over the world, but are based in our Design Centre located in a quiet Lancashire village just outside the Ribble Valley. Our dedicated facility is over three floors which include studios, a materials test centre and prototyping lab.

SENATOR 3 R'S

Senator is committed to continually improving the sustainability of all environmental aspects within our business.

To meet both international standards and our own environmental targets we apply the three R's principle

**-Reduce, Reuse and Recycle.**

Whilst recycling is the element which receives the most exposure it is actually the last option available and should never be the prime target in anyone's battle to reduce waste.

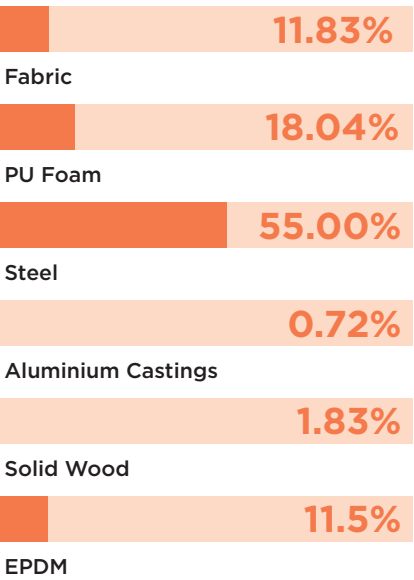

It is our duty as individuals and as a company to initially attempt to **Reduce** usage. Then we should look to **Reuse** wherever possible and finally, only after these two processes have been exhausted, should we consider **Recycling**.

Reduce  
Reuse  
Recycle
