

DESIGN FOR HEALTHCARE 2021/22

How to order:

When ordering please stipulate:

- Full name[s], address including postcode and telephone number[s] of contacts for delivery
- Full specification of all products
- Model numbers
- Finishes
- Fabric colours
- Any special delivery instructions, e.g.: restrictions to access or delivery times

All orders must include the DOH authority code.

This offer is available exclusively for The Senator Group products via authorised distributors.

Pricing:

Prices include delivery and installation during normal working hours subject to clear floors and site access. A surcharge may be incurred for extra time on site or out of working hours. Unless stated, furniture prices quoted are for an MFC finish.

Deliveries to Northern Ireland are subject to a 10% delivery charge on net order value.

Prices shown are special net prices. In addition there are many other products available at special terms to the NHS.

Guarantees:

The Senator Group undertakes that if within the guarantee delivery periods, the structure of the goods is found to have defects in workmanship or material under normal use and service it will [at its option], either repair or replace the defective goods or parts. This is subject to fair wear and tear and that the goods have been properly maintained and not been subject to any misuse, unauthorised repair, replacement, modification or alteration.

About us	171
----------	-----

Designed to make a difference...

Furniture should never be an afterthought.

It provides the opportunity to create a positive and cohesive environment for everyone to enjoy and benefit from the space.

It is with decades of experience and expert engineering, manufacturing and testing, that ensures every carefully selected to each and every Healthcare Setting.

This is how we make a difference.

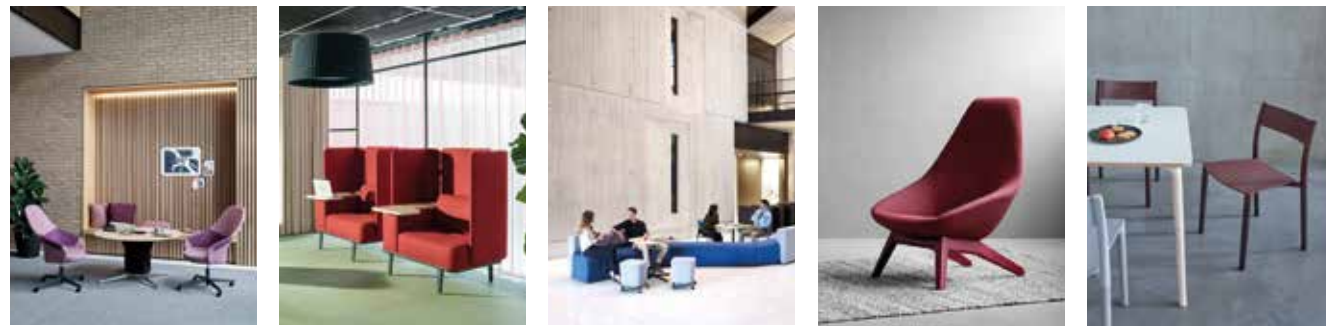

—

Our Insight

Patient Wellbeing

Improving the patient journey through a healthcare facility both psychologically and physically whilst providing an environment to empower staff is a critical element of the future of healthcare facilities.

Pages 09-21

Staff Wellbeing

The portfolio encompasses ranges to create functional healthcare spaces from front of house patient areas, consulting rooms, offices, meeting rooms and flexible training areas incorporating all storage and many other requirements.

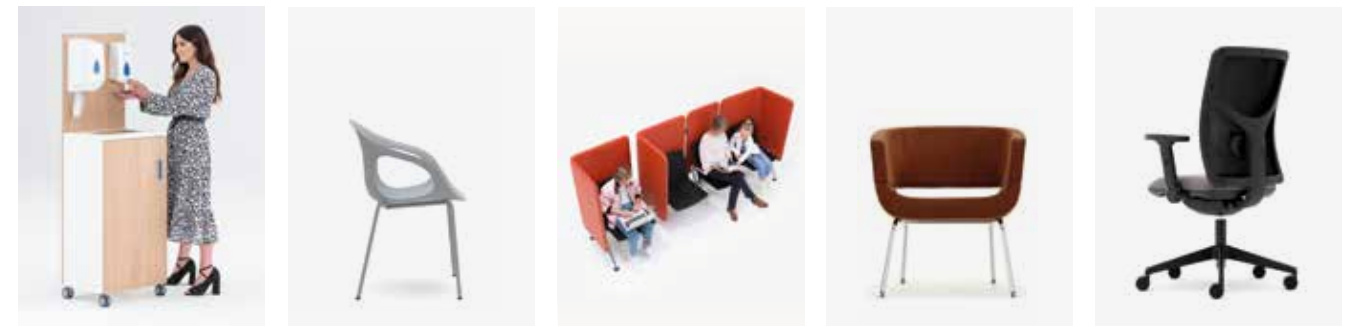

Pages 23-37

Infection Control

Flexibility within the ranges and designs enables products to be utilised in public areas upholstered with infection control fabrics and vinyls. Hygiene gaps, mono shells and streamline design reduce contamination pockets and dirt traps which capture and transfer potentially harmful pathogens.

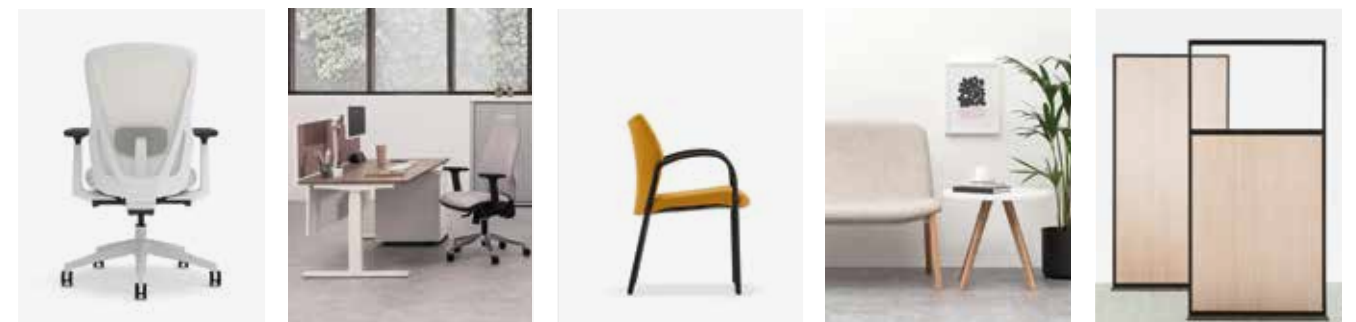

Pages 39-51

Essentials

In this section you'll find a wide selection of everyday essentials, to meet a multitude of Healthcare requirements and applications. Essentials are priced ready and available to order. Offered in a wide selection of fabrics and finishes, allowing you to customise your environments.

Pages 53-163

NHS - Liverpool

Patient Wellbeing

A range of furniture that positively enhances the experiences of patients and their loved ones to aid their recovery process, and support them on their journey to rehabilitation. Patient wellbeing plays particular importance in Hospitals and other Healthcare centres, which can often be seen as stressful and uncomfortable.

Patients who have a good wellbeing during their hospital visits should be able to recover quicker, bringing with that, a number of benefits.

Patients can therefore, through positive patient wellbeing experiences, hopefully suffer for less time and be discharged sooner. Easing the pressures away from the NHS and the evolving demands of current healthcare landscapes.

Giving patients a high-quality overall experience can mean, reduced Hospital stays and better care for new patients or those patients who continue to be in their care.

Sholes Chair / Talon Table / Cell Pod

Staff Wellbeing

Maintaining and developing the Health and Wellbeing of Healthcare Professionals is an essential component in ensuring that employees feel supported and empowered to continue to care for their patients, and themselves.

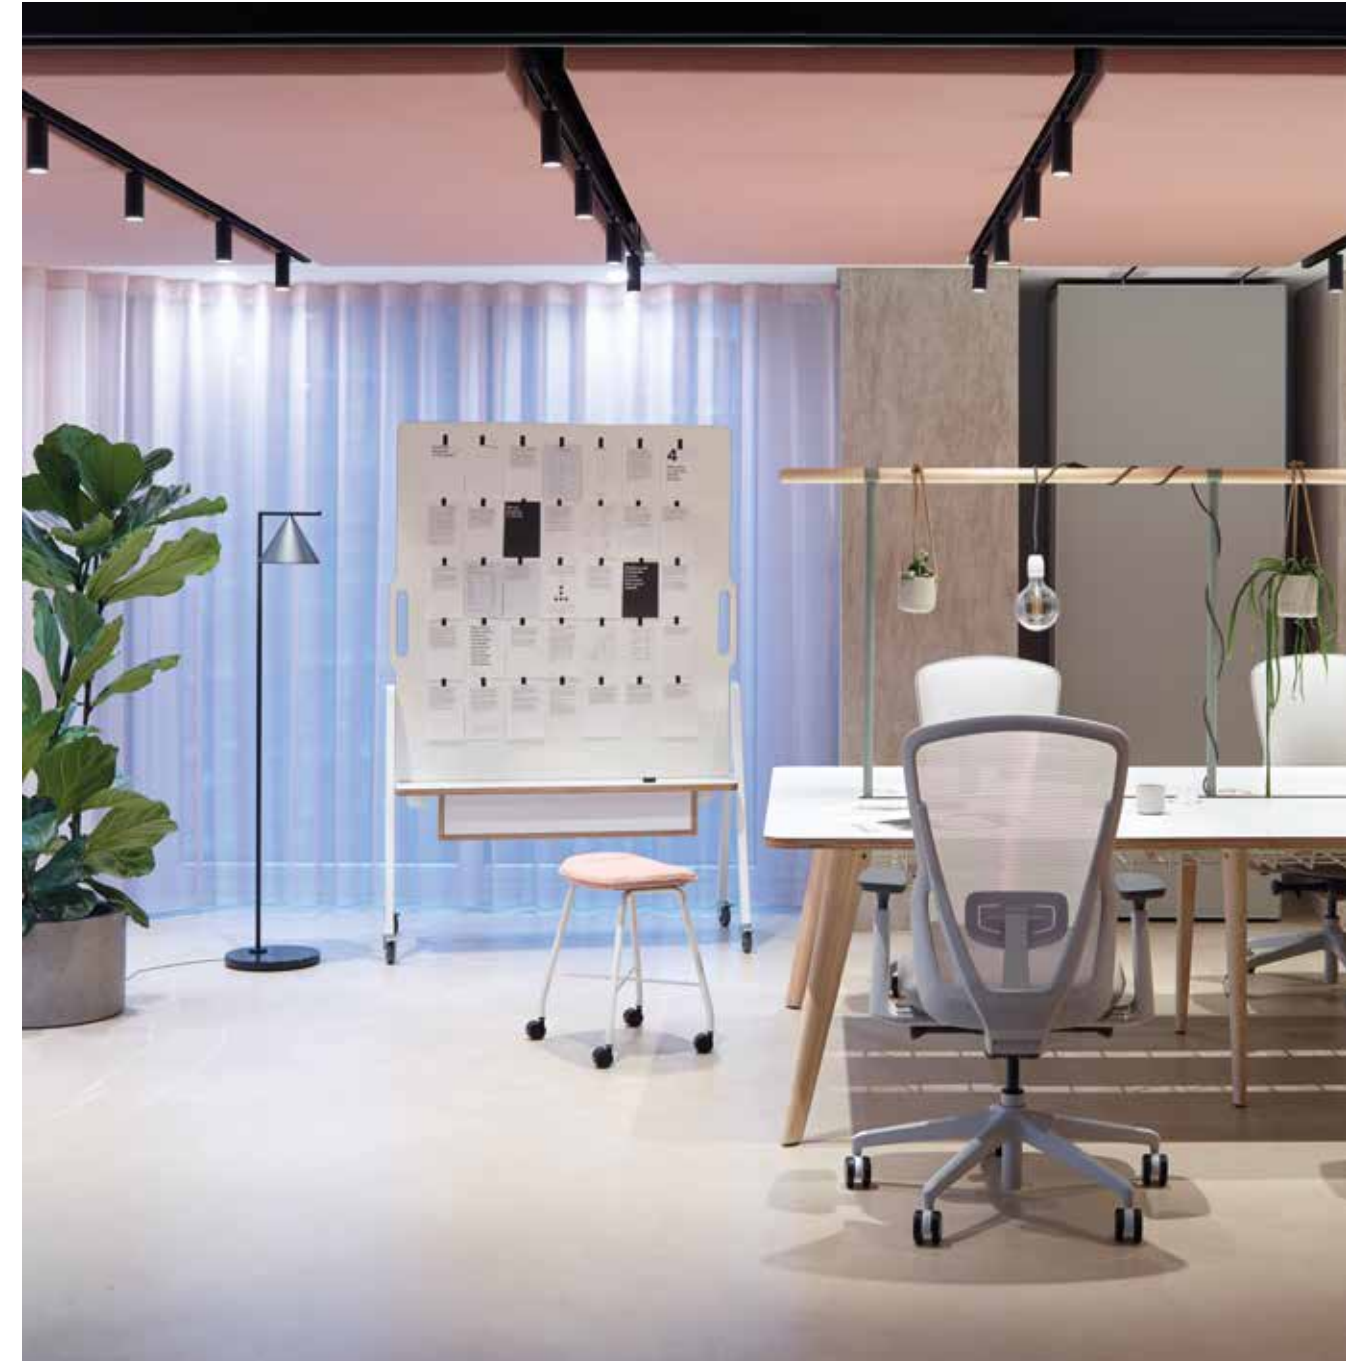

Investing in staff health and wellbeing not only delivers benefits for your organisation, but ultimately the patients in their care. Aligning a range of furniture that compliments the NHS England's Health and Wellbeing Framework, gives organisations the ability to design spaces and implement their own approach to improving the lives of their employees.

This range of furniture has been designed to support holistic and relaxation spaces aiding rest and communication, ergonomic and musculoskeletal support for working in seated positions for long periods of time, along with targeted support when demanding environments require specific interventions.

Infection Control

The risk posed by contracting infections is a significant concern not only to patients, but visitors and Healthcare Employees, too. In this section, the Furniture has been designed to fully uphold infection control in clinical settings. This is developed through research and understanding of;

Design and Application

Not only are the Furnitures surface materials designed to help fight infection, the very core of the furniture design is developed alongside our Healthcare partners to avoid any unnecessary spread of infection, which includes features like, seamless joints in line with required specifications and heavy-duty wipe clean and smooth surfaces.

The Senator Group has been a trusted supplier of Infection Prevention Furniture in to Healthcare Settings for over 25 Years.

Haven Pods

Within open plan office environments it is more common today for employees to share resources such as printers and scanners. Aside from the general ambient noise of an office it is generally accepted that it is these kind of devices whirring into life that provide much of the acoustic and visual distraction of colleagues utilising them.

STANDARD FEATURES

For a full range of finishes please see pages 166–169

- Internal Steel frame with multi layered foam construction
 - Outer vertical panels upholstered in Camira Blazer fabric (two-tone is standard)
 - Quick release panel connector system
 - Levelling adjusters

POD MFC TOP FINISHES

Mote

Mote has been designed to provide a holistic solution when designing dynamic environments. Created as a complete lounge seating range, no detail is an afterthought, with every inch having been given careful consideration to eliminate dead space.

The Mote family includes sofas, ottomans, screens and accessories, each linking seamlessly to each other to create a combination of rectilinear and curvilinear forms for beautiful yet defined spaces.

STANDARD FEATURES (*Selected models only)

For a full range of finishes please see pages 166–169

- Traditional carcass construction with multi density foam
- Fully upholstered
- Cast Aluminium leg
- Plastic glides with levelling adjustment

OPTIONAL FEATURES FEATURES (*Selected models only)

THE TRUE TEST OF QUALITY

Rather than outsource our manufacturing and face the inevitable compromises of oversight that entails, we've continued to invest in highly capable and adaptable production technology. Trusting everything to our own skilled people and keeping our own technology cutting edge is The Senator Group secret to quality.

We also test, then test, then we test again. We consider every conceivable stress and strain our products may encounter through a long working life, and subject them to rather more pressure than they're ever likely to suffer, just to be on the thoroughly safe side. Because of this rigorous attention to detail we can confidently and proudly guarantee every product we produce.

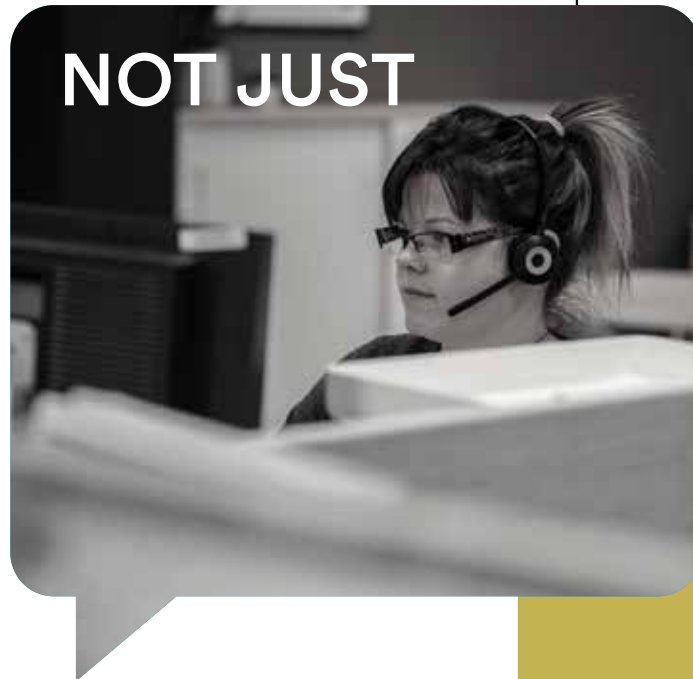

DESIGNING

RELATIONSHIPS

NOT JUST

FURNITURE

Whether you order a single chair or an entire building, you'll receive the same personal experience every time. No answer phone or voicemail, just a friendly person everytime.

- Fully integrated with the business, responding quickly to your needs.
- Dedicated point of contact on your account.
- You will always deal with a real person based in our UK Head Office or around the world.

400,500
PRODUCTS
SAVED FROM
LANDFILL
SINCE 2015.

GOING ABOVE
AND BEYOND

- 83,385 items of packaging re-used in 2020
- Every year zero waste into landfill
- SKA and LEED compliant

Sustain

As well as looking at ways to reduce our impact through renewable energy, alternative fuel and energy efficiency, we also do everything we can to recycle and reduce waste.

This applies to furniture, but also extends to packaging and materials right across the company.

We now remanufacture up to 17% of our output and try to gift as much as we can to charity and local communities.

In 2019 we recycled:

—	Foam/fabric/leather:	26 tonnes
—	Metal:	410 tonnes
—	Cardboard and paper:	447 tonnes
—	Plastics:	148 tonnes
—	Wood recycled board:	1,221 tonnes
—	Wood recycled biomass:	2,526 tonnes
